# **BUSINESS NOTES** AND TRADE NEWS

National Association of Credit Men and Clothiers Form Consolidation.

Consolidation of the credit bureau of the National Association of Credit Men and the National Association of ers was announced yesterday. Under the plan of consolidation the two organizations will retain their in-defauality, wille the clothiers' credit foreau will take over the operation of the New York branch of the Credit the New York branch of the Credit Men's Association. The alliance places in the hands of creditors a broader means of knowing the conditions of merchants who are seeking their confidence, according to J. H. Tregoe, executive head of the credit men. "It also provides," he said, "creditors with a means, by cooperating with the varimeans, by cooperating with the vari-us adjustment bureaus of the associaous adjustment bureaus of the associa-tion, of giving assurance when a debtor is temporarily embarrassed that the in-terests of all concerned will be cared for. The clothing and allied trades have now an instrument which brings about co-operation in all clothing markets."

### Broad Silks Continue Active.

A large number of buyers is in the market for broad silks and are purchasing slightly larger quantities than herstofore. One manufacturer is of the opinion that crepes will be in greater demand for spring wear. He believes that georgeties will return as a leadin, fabric. Satins are not being shown in the Paris openings. The better qualities of crepes de Chine will in all probability be a style factor. Tinsel brocades and velvets in the pastel shades are being bought for evening wear for fall.

# Fruit Trade Prospects Bright.

The outlook for the fruit industry is considered good. In a statement to the trade a produce merchant says: "The South seems to be in a very good shape. South seems to be in a very good shape. Jobbers all over the country are carrying muci lighter stocks than usual at this time of the year. Crops of all commodities, with very few exceptions, are large and this spells a buyer's market. Prices generally on all lines are moderate. New crop dates will be arriving from Mesopotamia this year some weeks ahead of last season and are expected to be low in price. Fig prices already have been made and quotations this year will be anywhere from i to 5 cents a pound under those of the opening prices last season."

### Strike Retards Lumber Trade.

Car shortage and slow rail movemen re the overshadowing features of the Car snortage and slow ran movement are the overshadowing features of the lumber market situation, says Lumber. A steadily increasing demand is adding to the tension in the soft woods, which are characterized this week by further advances and a generally strong price level. Quotations are far from uniform and the willingness of the trade to pay premiums for quick deliverles has developed many erratic tendencies. The disposition of the larger operators in yellow pine, as well as in Douglas fr, is to withdraw from the market rather than to name prohibitive prices to would be buyers. Hard woods are showing only moderate activity in demand and the difficulties of shipping are having little effect upon prices.

### Gray Goods Values Stiffen.

The local gray goods market displayed The local gray goods market displayed renewed firmness yesterday. Prices on all descriptions went up about an eighth of a cent, although demand was not particularly active. There were numerous inquiries from buyers, although there was little disposition on their part to commit themselves at the new price levels. On the other hand, mills were not pressing sales and their views of values. sales and their views of values pressing sales and the are well maintained.

# Predicts Good Dry Goods Trade.

The wholesale dry goods trade in the middle West does not show much change from the preceding week, according to John V. Farwell Company's weekly re-John V. Farwell Company's weekly review. Road orders are less in unit and in volume compared with the corresponding period last year. Collections, however, show a noticeable gain, the improvement indicating better conditions in the country. There were also more keyers in the market than during the corresponding period last year. Cotton goods continue very active. The business stage is set for great activity the moment the strike situations are cleared.

# VATICAN INSTRUCTS | RUSH HOUR TRAINS CATHOLIC COUNCIL CUT IN COAL CRISIS

Welfare Body Allowed to Meet Interborough Permitted to Reduce Service Tenth to Avert Tieups.

> To avert in the present sweltering heat possible tieue on Interborough subway and "L" lines, threatened by use

The disastrous result of the first attempt of any power plant in New York city to use English fuel forced the commission to the conclusion "that with possible steam pressure so reduced and with such a small factor of safety there was a possibility of the strain of operation during rush hours becoming so great as to exhaust steam pressure and temporarily shut off power supply.

A well aimed shot fired by 'Detective Diver of the safe and loft squad, shortly before last midnight, ended the flight of an alleged negro holdup man who, with three white men, according to the police, robbed Shiro Ogora, a Japanese, of 12 Chatham square, in a doorway at Henry and Catharine streets.

The negro, Nathan Buckner, 32 years old, of 104 Prince street, Brooklyn, was staken to Bellevue Hospital with a builet wound in his left leg, a prisoner, charged with robbery.

When Detective Divver heard Ogora's cries he set out in pursuit of the negro. When Detective Divver heard Ogora's cries he set out in pursuit of the negro. He called to Buckner to halt. The latter ignored the command and Divver fired.

JURORS FELICITATE KOENIG.

The sixty-nine members of the three dannounced.
